Sale of Lot & Construction of Homes

The lot being sold is available due to an enforcement action or voluntary relinquishment of the property to the City of West Liberty. The City has cleared the property and removed all known construction debris. Water and sewer services have been temporarily discontinued, and the City makes no warranty as to the viability of the existing lines. Disconnection of the existing sewer line from the main, if needed, is the sole responsibility of the buyer. Upgrades or repairs to the connections, if needed, are the sole responsibility of the buyer.

The property is being sold "AS IS," so the bidder should make itself familiar with the lot prior to making a bid on the property.

The lot will be conveyed to the successful purchaser by warranty deed with right of reversion and the City of West Liberty will furnish an abstract. Closing shall take place within 60 days of award of the lot to the chosen bidder and entire bid price will be due and payable at the closing.

Lots are being sold with the sole purpose of encouraging new home construction in infill areas. Lots will not be sold to increase an adjoining landowner's lot size. A new home must be built or moved on the lot and made suitable for occupancy within 24 months. Extensions to this time limitation may only be granted by specific permission of the City Council. Homes built must be of stick-built or modular residential construction, and meet the following requirements:

- 1) Homes will have a minimum of 1,000 square feet finished living space. In the case of a duplex, the minimum will be 900 square feet per unit finished living space.
- 2) All homes must have an attached garage.
- 3) Driveway must be continuously paved from garage to street. If street is without curb & gutter, driveway must be continuously paved from garage to property line.
- 4) Existing trees should be maintained to the extent possible or replaced on a 1:1 basis if removal is required, except as approved in writing. In all cases, the finished property should contain at least two trees.
- 5) If a public sidewalk exists along the property, it must be brought up to code.
